

Product: Can-Am Defender Gauge Top Device Holder (Phone/GPS)

Disclaimer: N/A

Instructions:

- Make sure there is nothing in the storage area that may be damaged by the screw ends during initial installation.
- Align the holder centered on the top of the gauge top cover.

- Secure the holder using the supplied screws. The short screw should be installed on the single front angled hole.

Thank you for your purchase.

- Once the screws are in place open the lid and attach the rubber caps to the two rear screw tips. These can be cut down to size. They are intended to protect against any damage to items you may want to store in this area.
- Best way to align the adhesive back plate to your holder and device is to put the back plate on the holder in the best position that the magnets hold it the strongest. Remove the adhesive backing and then press your device against it as if it were sitting in the holder.
