

Product: Commander Lower Dash Switch Panel

Disclaimer: Please remember to disconnect all power before doing wiring on your machine

Instructions:

- Do not install switches before installing the panel. Switches will interfere with mounting screw attachment locations.
- Hold your panel up in place and use the 3 supplied screws to attach it to the OEM lower dash. Two under the front edge and the third on the back right side.

- Install your switches and wire per your liking. Install switch blanks if ordered by pushing them into place.
- \*\*Installation is the same for both driver and passenger switches\*\*

Thank you for your purchase.
